Sheet 6

On the detail for RECONSTRUCTION OF SANITARY SERVICE LATERAL change “NOTES ON SERVICE CONNECTIONS:” Note #1 to read:

“All costs associated with replacing the sanitary service lateral as shown on this detail shall be included in the unit price bid for Item 15-Existing Sewer Repair and Item 16-Existing Sewer Replacement”

**BID DOCUMENTS**

Section 00300 – BID PROPOSAL FORM

On pages 00300-2 and 00300-3 Change the following item descriptions for Items 15, 16, and 17 to read as follows:

ITEM 15 – EXISTING SEWER REPAIR (CONTINGENCY)

- A. This item is a contingency pay item for use at the discretion of the Owner or Engineer. Repair or replace as directed all sanitary, storm, and field drainage pipe disturbed/damaged by trench excavation. The unit price per each for Item 15, Existing Sewer Repair, shall include the cost of making a repair and it includes the cost of making the flexible watertight connection at each end of the repair. This item does not include the placement of the new pipe. The new pipe will be included in Item 16, Existing Sewer Replacement or Item 17, Existing Storm Sewer Lateral Replacement. For all existing sewer pipes repaired, the cost of each repair will be paid for in two parts – A quantity of 1 each of Item 15 for making the repair, and then the actual footage of the repair will be paid under Item 16 or 17.

ITEM 16 – EXISTING SEWER REPLACEMENT (CONTINGENCY)

- A. This item is a contingency pay item for use at the discretion of the Owner or Engineer. Repair or replace as directed all sanitary pipe and all storm pipe (not including storm service laterals) disturbed/damaged by trench excavation. The unit price per foot for Item 16, Existing Sewer Replacement, shall include the cost of removing the existing damaged pipe

and replacing the pipe with new pipe along with the proper bedding and backfill. This item does not include the flexible watertight connections at each end of the repair as those would be included in Item 15, Existing Sewer Repair. For all existing sanitary sewer pipes and storm pipes (not including storm service laterals) repaired, the cost of each repair will be paid for in two parts – A quantity of 1 each of Item 15 for making the repair and then the actual footage of the repair will be paid under Item 16.

#### ITEM 17 – EXISTING STORM SEWER LATERAL REPLACEMENT

A. Replace existing storm sewer laterals from the existing connection point and reconnect to the new storm sewer main in accordance with the Drawings and Specifications. The unit price per foot for Item 17, Existing Storm Sewer Lateral Replacement, shall include the cost of removing the existing storm sewer service lateral pipe and replacing the pipe with new pipe from the existing connection point to the new storm sewer main, along with the proper bedding and backfill. This item does not include the flexible watertight connections at each end of the replacement as those would be included in Item 15, Existing Sewer Repair. For all existing storm sewer lateral pipes replaced, the cost of each replacement will be paid for in two parts – A quantity of 1 each of Item 15 for making the connection at each end and then the actual footage of the replacement will be paid under Item 17.

END OF ADDENDUM #2
